

Explore Spiti, be a part of Solar Conservation Project

- A Gold Level Adventurous Journey and Residential Project
- Dates: 5th to 21st June 2015

In collaboration with Award Partner

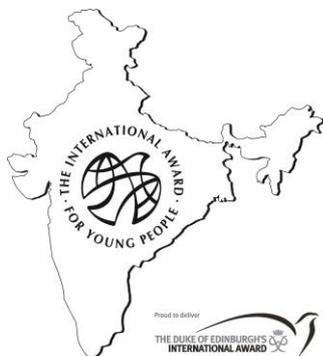

AIM : To highlight the need for sustainable development and engage young people in projects to witness first-hand positive outcomes of Societal Engagement, with focus on other valuable and crucial aspects/issues closely related like Environmental Consciousness, adaptation to a Multicultural Environment, and Social Networking.

Organised by Ecosphere in collaboration with IAYP India, the project is one of its kind, combining an Adventurous Journey and Gold Residential Project exclusively for Gold Award Participants. **This project will provide an interesting insight into Spitian life, culture and Buddhist heritage and an opportunity to be a part of the environment preservation initiative taken by the community. During this journey the Award Participants will be assisting the local community in the construction of a Solar bath/Greenhouse. The volunteers will participate in the actual construction of the Solar Bath and the setup of a Solar Water Geyser (Evacuated Tube Condenser) or a Greenhouse and will be assisted by a dedicated team with a qualified mason and representative from Ecosphere.** The activity will entail physical work. The construction period will be 7 to 8 days. The trip combines work and pleasure. During this trip the Award Participants will also be visiting some of the highest villages in the world, going on a high-altitude trek, visiting some ancient monasteries dating back to over a 1000 years and taking a yak/horse safari and mountain bike if interested. Traditional homestays further enrich the experience by giving an authentic understanding of the life and culture in a Spitian home.

Ecosphere founded by Ishita Khanna (Gold Award Holder) is a social enterprise dedicated to sustainable development through collaborations with the local community of Spiti and professionals from diverse backgrounds. With focus to create sustainable livelihoods that are linked to nature and culture conservation, Ecosphere addresses the triple bottom-line of conservation, development and economies. To know more about Spiti and Ecosphere, visit www.spitiecosphere.com.

Spiti is a cold desert located at an average height of 4000 metres above sea level in the Northern Himalayas. The construction of a solar bath is of great significance in this region as great amounts of fuel wood, coal and wood is burnt for heating water that contributes to CO₂ and black carbon emissions. The latter having far more damaging effects on the melting of glaciers and snow on a local level. Through the setup of a solar bath that includes both a passive solar structure as well as a solar water heating system, we enable the people to cut down on emissions (especially reducing black carbon) as well as enable them to have better hygiene through regular availability of hot water.

- A Gold Level Adventurous Journey and Residential Project
- Dates: 5th to 21st June 2015

In collaboration with Award Partner

Through the Spiti Gold Solar Project, Ecosphere aims to showcase the fragile environment in the highest mountain range of the world while encouraging young people to have a positive transformative experience through:

- Exchange of culture not only with the Buddhist locals in the area but also with the other participants in the Project coming from a different area and cultural background, and thus boosting up Social Networking
- Instilling Environmental Consciousness and emboldening the students/youth to engage in a sustainable Community Service, and ensuring a significant Social Impact through the construction of a solar facility in the area
- Providing a platform for the youth of the Universities to visit and enjoy the picturesque lap of nature in the highest mountain range in the world, and simultaneously being successful in making a positive change towards community, as a Global Citizen.

Programme Details

Dates: 5th – 21st June 2015

Approximate Cost will be Indian Rupees 38,000.00 (Rupees Thirty Eight Thousand only – for a group of 15 participants) per participant from New Delhi to Spiti and back. Does not include travel fare of transit from/to participant's country and back.

The Trip encompassing 17 days will involve:

<p>Day 01: Delhi arrival and depart for Shimla</p> <p>Mode: Overnight Bus Gradient: Gradual to steep Ascent & Descent Duration: 9 - 10 Hours Team: IAYP India & Ecosphere</p>	
<p>Day 02: Shimla to Kalpa O/N KALPA</p> <p>Mode: Bus/Jeep Gradient: Gradual to steep Ascent & Descent Duration: 8-9 Hours Accommodation: Hotel/Guesthouse</p>	<p>Today we travel from Shimla via the apple growing belt of the State to the Satluj valley. We follow the Satluj for a while till Puwari from where we start the ascent for Kalpa through some lovely sections of forests. Kalpa offers some beautiful views of the Kinner Kailash range.</p>
<p>Day 03: Kalpa to Kaza O/N KALPA</p> <p>Mode: Bus/Jeep Gradient: Gradual to steep Ascent & Descent Duration: 8-9 Hours Accommodation: Hotel/Guesthouse</p>	<p>Today we follow the Satluj River again till a place called Khab where the Spiti River meets the Satluj. From here we follow the Spiti River till we reach Kaza. The landscape today will slowly transition from the lush green Himalayas to the cold desert terrain of the Trans-Himalayas.</p>

Day 09 to Day 12:

Gold expedition

Accommodation: Homestay

Explore Spiti: This ranges from visits to over 1000 year old Tibetan Buddhist Monasteries, living in traditional Homestays giving one a peep into culture and lifestyles in Himalayan villages, trekking along wildlife habitats with diverse flora and fauna.

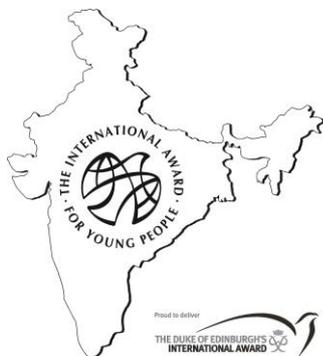

We will spend the next 4 days exploring the Spiti valley and get to see the various facets of Spiti valley ranging from visits to over 1000 year old Tibetan Buddhist Monasteries, living in traditional Homestays giving one a peep into culture and lifestyles in Himalayan villages, trekking along wildlife habitats with diverse flora and fauna.

We begin early **on Day 09** and trek to Asia's highest village at 4500 meters. Here we spend the night in Homestays and also visit the monastery adorning this village.

On Day 10 we trek across alpine pasturelands to a village called Demul (5 – 6 hours trekking). One can opt for a yak/horse safari* in case one would rather not trek. The route traverses across the hunting grounds of the endangered Snow Leopard and Himalayan Wolf where spotting of the Blue Sheep will be possible. We spend the night at Demul in Homestays.

On Day 11 we will trek/ yak or horse safari* up to 5000 mtrs to a vantage spot which provides a birds eye view of the Spiti Valley. Reaching this vantage spot is thrilling and well worth the effort. We return to Demul for the night where we get a peep into the indigenous folk expressions of the region through an evening of songs and dance forms.

On Day 12 we trek to lahlung village and further by jeep on to Dhankhar village which was the erstwhile capital of Spiti by jeep. Dhankhar is famous for its monastery and the remains of the fort still remain. The location of the Monastery perched precariously between wind eroded structures leaves one spell bound at the architectural ingenuity of yester years. We visit the Dhankhar monastery and fort and trek up to the Dhankhar Lake (a 1 hour trek from the village). Today we head back to our project village.

<p>Day 13 to Day 14: Project Village O/N KAZA</p> <p>Accommodation: Homestay/Guest House/ Camping</p>	<p>We will spend the next few days completing our project. On the last day the project will be inaugurated. Later we head back to Kaza for the night.</p>
<p>Day 15: Kaza to Manali O/N MANALI</p> <p>Mode: Bus Gradient: Gradual to steep ascents and descents Duration: 8—10 hrs (travel time)</p>	<p>After breakfast we drive back to Manali along the same route that we took to reach Kaza. If time permits and the road is open we take a short detour* after crossing Kunzam La (4551 mts) to Chandra Tal (4270 mts), the lake of the moon goddess.</p>
<p>Day 16: Manali to Delhi</p> <p>Mode: Overnight Bus Gradient: Straight to gradual ascents & descents Duration: 12-14 Hours</p>	<p>Today we spend the day at Manali at leisure and in the evening catch the overnight bus to Delhi.</p>
<p>Day 17: Arrival Delhi</p>

MEDICAL FORM

Ecosphere's products comprise a wide array of activities that range from gentle hiking to trekking, camping, yak safaris, cultural tours, etc mostly in high altitude regions of the Trans-Himalayan belt of Himachal Pradesh. People traveling with us are required to be in reasonably good physical condition to be able to cope up with high altitude and the problems that can be encountered as a result of the same. Your medical information plays an important role for us to be aware of the limitations and take appropriate medication on our treks and tours and also to assess the guest's capacity to undertake the same. We rely on the information provided by you in this form.

Name	_____			Gender	
	First	Middle (if any)	Last	<input type="checkbox"/> Male	<input type="checkbox"/> Female
Date of Birth				Height:	Weight:
	(Day)	(Month)	(Year)		
Contact Person in case of Emergency:				Contact No. / Email:	

Blood Group <input type="checkbox"/>	Do you have or have had any of the following? If yes, please elaborate?					
	Asthma	<input type="checkbox"/>	Fainting	<input type="checkbox"/>	Bone / Joint Problem	<input type="checkbox"/>
	Head Injury	<input type="checkbox"/>	Epilepsy	<input type="checkbox"/>	Heart / BP Problem	<input type="checkbox"/>
If you have / had any physical ailments or health issues other than those mentioned above, please tell us.						
Have you been admitted to a hospital for any treatment in the last 12 months? If yes, please provide details.						
Are you allergic to any medicines or other items including food items? Please list.						
IN CASE YOU HAVE TICKED ANY BOX ABOVE, PLEASE PROVIDE DETAILS ON A SEPARATE SHEET						
DECLARATION						
I declare that the particulars in this medical form and attached sheets (if any) are true to the best of my knowledge and belief and I have not willfully suppressed any fact. I also allow the local Doctor at Community Health Centre, Kaza, to provide medical treatment if required.
